Town of Yampa Colorado

To the Town Board of Yampa,

I am addressing an issue between me and the assistant town clerk, one of many times of unprofessional situations in the work place. And because of this behavior I will no longer work with or around her. On Tuesday, October 27, 2020 the town clerk mentioned no one had applied for the public works water and waste water job. Which I felt was very concerning to me because it affects me doing everything and being on call every day. So that night I looked up the job posting and it wasn't on the front of the home page of the town. I finally found it under the newsletter link which seemed odd. You would have to hunt for the posting. I was gone on Wednesday, October 28, 2020. So on Thursday, October 29, 2020 I was talking to the town clerk and asked how someone would know where to look under the newsletter for the job posting? She looked it up then and it was on the Front Page that morning.

Then, I mentioned about putting in the advertisement about the town benefits and putting the add on the Colorado Rural Water site and possibly the other Internet sites.

Then I went to the assistant clerk's office because she had a message for me. When talking with her I mentioned I did not understand what happened on the town website about the job posting. And about the ad not having mentioned about the town benefits. Then out of the blue she just blew up and snapped at me and informed me I should have wrote the ad myself. I told her I wasn't meaning any insult to her, and did not know she wrote the ad. She then snapped at me and said she did not write the ad. She then proceeded to go off on me about the problems around there. That when someone does something around here that all people do is criticizing everything they do. Then she snapped at me and accused me that all I do is criticized everything and so why am I even working there still. I was not criticizing anything or bad mouthing anything for her to go off like that. We were just talking. But Nora is the last person to be pointing fingers at people about criticizing. So at this point I did get mad and decided I do not need to deal with that type of behavior any more from her. So I did turn in my time sheet and keys to the town clerk. She asked me to wait and talk to the Yampa town board first. I really hope the new town clerk can turn the town offices around and make it more professionally user friendly not only for staff but also the town people that it is a friendly place to come into for staff and the town.

Sincerely,

Greg Samuelson
